MIRACLE

Upgrade to CareCall EDGE and CareCall Wireless

- Individually monitored for communications integrity and power supply.
- Solely battery operated (MKIII) or low-voltage fed, battery-backed (MKIV) solutions.
- Three push call escalations with configurable intervals.
- Transmits three distinct call levels (primary, secondary and tertiary alarms).
- Customisable reassurance backlighting.
- Easy cleanining anti-microbial fascia.
- Portable pendants with floorplan location services.
- Simple integration and staged deployment options.
- Reliable Inovonics Echostream RF network.
